Travel Agents: Taiwan Food Tour — Player-Aid Cards

Home print-and-play — A4

Print at 100% / Actual Size — do NOT "Fit to page" / "Shrink to fit".

In the print dialog set Scale = 100% (or "Actual size"). Then measure the two bars below with a ruler before cutting — the 50 mm bar must read exactly 50 mm and the 2-inch bar exactly 2 inches. If they are short, your printer shrank the page — turn scaling off and reprint.

50 mm — must measure exactly 50 mm

s (50.8 mm) — must measure exactly 2

In this file

The double-sided player-aid cards: one shared ACTIONS front (aidcard-front) + one ABILITY/FLAW back per character. Each player takes the front plus their agent's back.

7 cards, 9 per sheet (3×3) at true 63.5×88.9 mm. 1 print sheet follow this cover (2 pages total).

Cut & mount

- Print onto (or glue onto) ~200–300 gsm cardstock; a glue stick or spray mount onto cereal-box card works for a first prototype.
- Cut along the shared grid lines — abutting cards share one cut, so a guillotine or a steel ruler + craft knife goes fastest. The coloured corner ticks mark the outer trim of each sheet.
- Round the corners if you like, and sleeve them (63.5×88.9 mm = standard poker / "premium" sleeves) so they shuffle.

Colour is preferred, but this is fully B&W-playable. Every region and ingredient is dual-coded with a distinct shape / emblem (and a text + 繁體 label), not colour alone — so greyscale prints stay unambiguous.
Note: the character boards currently show the art placeholder; final mock-up art drops in later and re-tiles automatically.
