Travel Agents: Taiwan — Cards (A3)

Home print-and-play — A3

Print at 100% / Actual Size — do NOT "Fit to page" / "Shrink to fit".

In the print dialog set Scale = 100% (or "Actual size"). Then measure the two bars below with a ruler before cutting — the 50 mm bar must read exactly 50 mm and the 2-inch bar exactly 2 inches. If they are short, your printer shrank the page — turn scaling off and reprint.

50 mm — must measure exactly 50 mm

s (50.8 mm) — must measure exactly 2

In this file

All play cards, in real deck quantities: 24 Vendors, 45 Bookings, 62 Ingredients (16 faces × copies), 54 Events (the V7-M pool — day + night; setup deals a per-count subset per region).
186 cards, 16 per sheet (4×4) at true 63.5×88.9 mm. 12 print sheets follow this cover (13 pages total).

Cut & mount

- Print onto (or glue onto) ~200–300 gsm cardstock; a glue stick or spray mount onto cereal-box card works for a first prototype.
- Cut along the shared grid lines — abutting cards share one cut, so a guillotine or a steel ruler + craft knife goes fastest. The coloured corner ticks mark the outer trim of each sheet.
- Round the corners if you like, and sleeve them (63.5×88.9 mm = standard poker / "premium" sleeves) so they shuffle.

Colour is preferred, but this is fully B&W-playable. Every region and ingredient is dual-coded with a distinct shape / emblem (and a text + 繁體 label), not colour alone — so greyscale prints stay unambiguous.
Note: the character boards currently show the art placeholder; final mock-up art drops in later and re-tiles automatically.
